

How will traffic be affected?

During construction, at least one lane of traffic will be maintained using flag control during daylight hours. In addition, there will be sidewalk closures and parking restrictions in certain areas where work is taking place.

A short-term detour (approximately one month) will be put in place to accommodate installation of a box culvert during construction. A local detour will be used.

Pinckney Is Open for Business!

The Michigan Department of Transportation and the Village of Pinckney want to remind everyone that while M-36 is under construction, Pinckney is still **open for business!** Off-street and side street parking is available with easy walking distance to downtown stores and restaurants.
